

Natural avalanches on Mt. Republic

Mt Republic

Cooke City

1/21/2019

Code

SS-N-R2-D2-I

Aspect

N

Notes

Natural avalanches in the new snow, near Cooke City, on January 21st.

From email: "avalanche crowns on the shoulder of Mt. Republic from this morning. (saw the powder cloud at about 8:30am). I estimate the upper crown to be 1-3' deep and about 100' wide. Northerly facing terrain."
