

Natural Cornice break and wet loose in Alex Lowe Basin

Alex Lowe Peak
Northern Gallatin
3/15/2020
Code
WL-NC-R1-D1-I
Latitude
45.42530
Longitude
-111.01200
Notes

From the Blackmore/Elephant saddle I observed what looked to be a less than a day old [cornice](#) break which triggered a loose wet [slide](#) in front of it. The [cornice](#) debris was large, about the size of a VW beetle. Also observed some [surface hoar](#) on the north side of the saddle.
