

Small wind slabs in Hyalite

Northern Gallatin

2/13/2025

Code

SS-N-D1

Notes

Climbing at the Unnamed Wall in the vicinity of The Fat One, there are some 3"–8" wind slabs formed. At least three small pockets had released from 2" to 5" deep. Lots of spindrift and heavy winds filled in parts of our trail in a few minutes.

Number of slides

3

Number caught

0

Number buried

0
