

Old Wind Slab Avalanche South of Cooke

COOKE CITY

Cooke City

3/14/2025

Code

SS-N-R2-D2-U

Elevation

9600

Aspect

E

Latitude

45.02020

Longitude

-109.93800

Notes

We were split boarding south of Cooke City today, up to terrain around 10'000', and finding good snow [stability](#).

Weather was mostly cloudy in the am, partly cloudy in pm. Light winds from the SW.

No fresh avalanche activity observed. Attached is a photo of the only sign of a recent avalanche we could find. (an old crown on an East [aspect](#) at 9600').
