

With numb fingers, Mark Staples puts up the weather station at LuLu Pass outside Cooke City. It was a frigid 2F with a 20 mph wind. It measures wind speed, direction, temperature and relative humidity. This new station was recently purchased by the **Friends of the Avalanche Center**. It sends data hourly to a web page: <http://bit.ly/5yXgti>

Advisory Region  
Cooke City  
Longitude

-109.96W
